AGENDA OVERVIEW

Hosted by American Medical Women's Association (AMWA), Global Initiative Against HPV and Cervical Cancer (GIAHC), and Indiana University (IU)

Building on the foundation that has been laid over the past three years, the 2022 Us vs. HPV will highlight strategies to tackle the various types of vaccine hesitancy, discuss the updated WHO guidelines on cervical cancer elimination strategy, and provide new information on HPV-related head and neck cancers. All webinars and panel discussions are open to a broad audience—from stakeholders to the general public who are interested in preventive health and in making cervical cancer the first cancer to be wiped out.

Monday, January 24, 2022

HPV Vaccination: Roaring Back to Prevent Cancer

Tuesday, January 25, 2022

Conquering Cancer - Documentary

Wednesday, January 26, 2022
