

Donate to our

CERVICAL CANCER SCREENING FUNDRAISER

IN COLLABORATION WITH:

We are excited to announce our fundraiser in partnership with HerHealthEQ to provide a colposcope, a cervical cancer screening tool, to a community-based healthcare clinic in Costa Rica, a country with a high burden of cervical cancer. In addition to purchasing the colposcope, the funds will also be used to train local healthcare providers how to use the tool to ensure a lasting impact in the community.

This fundraiser is being held in honor of Michele Baldwin, “Lady Ganga,” who paddle boarded over 700 miles down the Ganges River in India to raise awareness about cervical cancer screening and prevention after she was given a terminal cervical cancer diagnosis. Your donation honors Michele’s memory and supports the purchase of a critically important cervical cancer screening tool for a community in-need.

Donations can be made at:
<https://www.giahc.org/donate/>

by clicking on the dropdown box and designating “Michele Baldwin Living Memorial Fund.”
